

THE DAILY AND WEEKLY HERALD has more than double the circulation of any other paper published in Southern California. Business men recognize it accordingly as the best advertising medium South of San Francisco.

FRIDAY,.....SEPT. 17, 1875

NEWS OF THE MORNING.

The attendance at the State Fair yesterday was much larger than the day previous. The three in five trotting race was won by Prince Allen.

The San Francisco Stock Board are re-naming operations. "Ballot Box" and "Irene Harding" will go against each other at Sacramento to-day. In the pool last evening "Ballot Box" sold at \$50 to "Irene's" \$25.

The result of the Colorado election is still in doubt, both the Democrats and Republicans claiming the victory.

The San Diego Union continues its allusion to the HERALD as a central Pacific Railroad organ. If the Union does not cease misrepresenting the HERALD we shall call it the organ of TOM SCOTT'S piece of road bed—that is if the grading has not all washed away.

The report that Mrs. LINCOLN had entirely recovered her mind is unfortunately not wholly true. Her attending physician has written a letter denying that he gave a certificate for her discharge from the asylum. He said that under certain circumstances the lady might visit her sister at Springfield with safety. She is now more troubled in her mind than when he made this statement. Mrs. LINCOLN still makes her home at the hospital where she receives her friends and frequently takes short rides with them into the country.

GEORGE M. PINNEY one of the truly loyal and ever faithful, who has been a shining light and model leader of the Republican party of San Francisco for years and who all those years has held a lucrative Federal office, has turned out a defaulter and like all loyal defaulters has pocketed his stealings and absconded. We remember GEORGE as a spry little California street luminary. He was first a bull and then a bear and then a bear and then a bull and all the time a rogue and an unswerving supporter of the Administration. The *Bulletin* and *Call* discovered that GEORGE was stealing from the Government and said as much. Thereupon he commenced libel suit against these papers and then ran away. He left a wife and several children and escaped with a woman not his wife and two hundred thousand dollars. Of such is one truly loyal Federal office holder.

THE Indian chief who said he supposed the hue and cry about an Indian war in Nevada was gotten up by a few men who wanted the soldiers sent out there in order that they might sell their barley and beef, was a man of more discrimination than is usually found among the aborigine tribes of the Pacific coast. He is evidently a close student of the White man and has read with some care the "Puributaw" of Doesticks in which the love of the pale face for money is traced from infancy through the varied stages of life to his final crushing to death beneath an American dollar. There is no doubt but that the reported rise of the Indians in Nevada originated in a scare or a hoped for speculation. The latter is most probably the correct solution.

HALF a score of newspapers in this State are vehemently calling on Senator BOOTH to take a back seat. Now why should the Senator take a back seat at this time or rather why should he take a seat farther back than the one he has occupied for two years past. His party is as strong now numerically and morally as it was at the close of the last Legislative session. It is as strong now in both these respects as it was when he sat solitary and alone—the leader of a party of which he was the head and front, the rank and file, the beginning and the end—in the United States Senate Chamber. We can see no reason—there is no reason—why the journals that did not ask Senator BOOTH to take a back seat two years ago should ask him to do so now. He is as far back as he can get.

THE Treasury Department is making preparations for the early establishment of life-saving stations authorized by Congress for the Pacific Coast, and the Commission designated for the purpose have located sites for them as follows: At Neah Bay, upon the Indian Reservation; at Shoal water Bay, upon the Light House Reservation; at Cape Disappointment, upon the Military Reservation; at Cape Arago, upon the Light-house property; at Humboldt Bay upon the light-house property, for stations designated in the Act. For Point Reyes, the site designated is near Duxbury, half at Bolinas Bay. For stations authorized to be established between Point Lobos and Point San Pedro, a site is selected near the beach at the Southwest extremity of the Golden Gate Park, the Park Commissioners of San Francisco having granted the use of the land for that purpose. The station designated for Point Conception will be located about two miles West of the light-house, what is known as Caza Harbor. It is expected that all these stations, except that of Shoal

Water Bay, and at Point Conception, will be manned by volunteer crews, and the one at Neah Bay, by Indians, as the Indians there are very peaceful and friendly and are expert surf men. Regular crews will have to be at the two stations named above. Proposals will soon be received for the construction of station-houses.

Hard Money.

The currency plank in the Democratic platform is perhaps the most important, and yet the one on which there is the greatest diversity of opinion among the members of the party. The Ohio platform which undoubtedly dodges the question, and hence necessarily opposes resumption of specie payment has proven a serious drawback, and measurably influenced the declarations of principles of the subsequent conventions. The true patriots desire to adopt the hard money plank, the politicians with their usual short sighted calculations desire to evade the issue or bow to the mistaken prejudice of the people of the West. It is to be hoped that the New York convention will settle the question, and squarely commit the Democracy to a hard currency.

It is decidedly the great question of the hour, and neither party can enter on a vigorous campaign without a decisive declaration as to its course on the financial question. The people are in a mood to express their convictions on a matter that affects them so deeply. There can be no neutrality. The voters of the U. S. are thoroughly convinced that the present currency system is a failure and a curse. They will have some other. It is either KELLY's inflation scheme or a specie basis. The Democracy must choose between these. If they allow themselves to be controlled by the office-seeking element whose desire to obtain power is so great that they are afraid to declare any principle, they will be defeated. The mere party name and the utter disgust of the people for the present administration do not furnish sufficient capital to bank on extensively. The conservatives tried the new neutrality policy in the last Presidential campaign and made a failure. The Cincinnati convention threw away a sound principle to take up an able man. The GREELY campaign illustrates the fate of the "milk and water" policy and ought to be a warning. "Measures not men" should be the banner cry of the Democracy. Let sound principles be boldly enunciated, and the contest will be decided in favor of the right.

Fast Railroad Time.

The astounding progress made in railway management during the last twenty years is sufficient to give credence to the most rosy prophecies of the most ardent admirers of the new element of civilization. Each decade sees the cost of transportation decreased, and the complete transfer of the traffic of the country from the watercourses to the railroad is now so far accomplished as to render it an assured fact. The management of a vast railway brings with it so much power and influence that ambition has directed much of the finest talent of the country towards it. Our railway magnates are second in fame to none in the land. Thus the problem has been worked out more rapidly than if left to the guidance of narrow minded money grabbers. If many of the railroads are bankrupt it is from the speculation and extravagance of the contractors, but the evils which attracted so much attention and led to the enactment of the "Potter law", in Michigan are being corrected. Poverty has led to economy, sharp competition has developed more varied resources, and where a change of ownership occurs at a reduced price the new owner can operate the road on a cheaper basis. In the passenger business the progress has been no less marked. The American people are the most restive in the world, but when traveling they demand comfort, safety and speed, and they get them at a reasonable price. Art exhausts itself in preparing palatial cars and human ingenuity is working night and day to provide new safeguards to the traveler, and statistics show that humanity is less liable to accident on a railway train than in the ordinary walks of life, that is, the proportion of maimed, injured and killed is less. As regards speed a new era has just now been inaugurated. The time of the mail trains between New York and Chicago has been shortened ten or twelve hours. The telegraph informs us that the inhabitants of the Lake City can now read New York papers but one day old. Judging the future by the past may we not hope that ere the year 1900 the passenger leaving San Francisco will be carried over the plains at the rate of one hundred miles an hour and landed in the heart of this great continent inside of two days.

A Brave Little Province.

Herzegovina in European Turkey, now in revolt against the Sultan, has an area of 6,420 square miles. Its population is 290,000 of which 230,000 are Christians, 62,000 Mohammedans. The whites belong to the Slavic race and speak a dialect of that language. The people are employed in stock raising and agriculture. The principal manufacture is that of swords and daggers, and the natives are very expert in these of these weapons, the mountain passes rendering hand to hand conflicts necessary. It is a mountainous country and watered by the Narina, which flows into the

Adriatic Sea. Herzegovina was formerly a province of the Kingdom of Croatia but was made duchy by Frederick III about 1450. In 1467 it was conquered by the Turks and confirmed to them by the treaty of Carlowitz in 1629.

The Attorney General's Letter.

The following is the letter sent by the Attorney General to Gov. Ames relative to the Mississippi troubles:

To Gov. Ames, Jackson, Miss.: This hour I have a dispatch from the President. I can best convey to you his ideas by extracts from his dispatch. The whole public are tired out of these annual outbreaks at the South, and a great majority are ready now to condemn any interference on the part of the government. I heartily wish that peace and good order may be restored without issuing the proclamation, but if they are not, the proclamation must be issued. But if it is I shall instruct the commander of the forces to have no childish play. If there is a necessity for military interference there is justice in such interference as to deter evil doers. I would suggest the sending of a dispatch or letter by private messenger to Gov. Ames, urging him to strengthen his own position by exhausting his own resources in restoring order.

PACIFIC COAST.

For Los Angeles.

CALIENTE, Sept. 16.—The following passengers left on Telegraph line for Los Angeles to-day: A. N. Tyson, and wife.

SAN FRANCISCO, Sept. 16.—The Stock Exchange meets this afternoon to consider the proposition to begin business again. Forty-three members have signed a call and motion to commence. The programme is to have informal meetings of both boards until Monday next, when the regular sessions will commence. As the heavy operators and most of the brokers are in favor of the move, as the money market is manifestly easier. Large amounts of coin are coming in from all directions to buy stocks, and the pressure of customers is getting so severe that brokers are forced to break the rule prohibiting their doing business.

Reports were in circulation on the street last evening that the Bank of California would re-open on the 27th instant. Inquiry at the office of the Directors this morning failed to confirm the rumors, the fact being that no day has yet been decided on, though it is intimated that, as heretofore stated in the Associated Press dispatches, resumption is probable about the 1st proximo. Considerable feeling and anxious inquiry as to the prospects of resumption have been created by unauthorized statements, published from time to time, giving such a day positively as the date of re-opening. Such statements are, to a great extent, mere deductions from street talk, and consequently unreliable. The Directors report nothing new this morning in the affairs of the bank. Everything is progressing slowly but favorably towards resumption, which will take place as soon as the necessary arrangements are completed.

The statements made yesterday that the assaying and refining works had been transferred to Flood & O'Brien, proves to have been premature, though the Bank of California people state that the bargain will be consummated at an early day.

Mrs. Norton, convicted in Santa Barbara of complicity in the murder of her husband and sentenced to imprisonment for life at San Quentin, arrived in this city last evening on the steamer Ancon. She was lodged in the County Jail, where she will remain a few days before going over to the bay. Mrs. Norton complained that Judge Murray, who sentenced her, refused to grant a stay of proceedings, and said he was probably governed by the feelings of the people in Santa Barbara, which were very bitter against her. She also expressed herself as confident that the Supreme Court will grant her a new trial. She expressed great solicitude for her children, who are now with her mother.

The celebrated mammoth grape vine of Monticello, near Santa Barbara, arrived last evening per the steamer, packed in seven boxes, for shipment to the Philadelphia Centennial Exhibition, where it is to be shown, with the limbs connected in their natural position as it stood for over half a century.

The State Fair—Becoming Yesterday.

SACRAMENTO, Sept. 16th.—The attendance was much larger than yesterday, and notwithstanding the weather, which was much warmer, the grand stand was principally filled with ladies.

The first race was mile heats, 3 in 5, which was won by Prince Allen, on three minutes, purse \$300, closed with the following entries: P. Goodhue's b. h. Gus Guerrero, T. Kenney's b. g. Jupiter, G. A. Emery's b. m. Lou Whipple, S. Crandall's b. m. St. Helena, D. J. Green's b. g. St. Helena, Allen, Saml. Roberts' b. g. Red Cross. In the pools before the race the horses sold as follows: Lou Whipple 100, St. Helena 60, Prince Allen 30, field 20. Betting was very lively at these rates. In the toss for positions St. Helena drew the pole, Red Cross second, Gus Guerrero third, Prince Allen fourth, Lou Whipple fifth and Jupiter outside. At the tenth trial they got the word, all well together. St. Helena went off in the lead, Prince Allen second, Lou Whipple third, the rest well strung out, in which position they went to the half mile in 1:15, when Prince Allen drew to the front, St. Helena and Lou Whipple close up. Down the stretch St. Helena was out-trotted by Lou Whipple, who gained the second position and was within a length of Prince Allen at the end of the race. St. Helena third, Jupiter fourth, Gus Guerrero fifth and Red Cross sixth. Notwithstanding Prince Allen won the heat with apparent great ease, Lou Whipple was still the favorite at 5 to 10 for Prince Allen for a time, then the odds changed in favor of Allen, at which rate they sold freely before the start for the second heat, which was at the close thereof much like the first. In this heat the trotting was done by Allen, Lou Whipple and St. Helena to the half mile in 1:14. At the outcome Prince Allen, who had trotted his mile without a skip, came over the score first by a length, Lou Whipple second,

St. Helena third, Jupiter fourth, Gus Guerrero fifth; time 2:30. Immediately after this heat Allen at once became a great favorite, and as the result shows that even at this late day the knowing ones fail to know it all. Pools opened at 30 cents on Sunday, Sept. 19th, 1875, between the hours of 10 A. M. and 12 o'clock M.

M. KREMER, Sec'y.

THE SECOND RACE FOR PACERS, MILE HEATS, 3 IN 5, FREE FOR ALL, NEVER BEATEN 2:22. The entries were W. A. Findley's b. h. John, H. White's b. g. Onward, J. H. Murphy's b. h. Sincere, G. L. Jacobs' b. g. California, known as Salt Lake. The pole was won by California, Billy Campbell, second and Onward fourth. John fifth. After fourteen or fifteen attempts to get off, owing to the bad acting of California and Billy Campbell, they got away, all running but Sincere, who at once went so far ahead that all chance of the others saving their skins was out of the question, which they failed to do, Sincere dashed the field in 2:26. Before the start Onward was the favorite over the field.

The first grand parade of stock will take place to-morrow at 10 o'clock, at which time there will be more betting in the procession than will ever before upon the track.

EASTERN NEWS.

The Colorado Election.

DENVER, Col., Sept. 15th.—Returns from the election in this Territory come in slowly. Arapaho county elects a majority of the Republican ticket. The Democrats elect one of two Councilmen, and 1 of 4 members of the House. They also elect the County Treasurer. Last Fall the county gave over 300 Democratic majority. The result in the Territory is doubtful, both parties claiming the Legislature.

DENVER, Sept. 16th.—The entire Republican ticket of this county except one councilman, one member of the House and County Treasurer is elected. The contest has been hot and close. The Territorial Assembly will be Republican.

The Governor has districted the Territory for a Constitutional Convention and has appointed Oct. 25th as the day of election for members of the convention, which will meet here on December 20th.

CONDENSED TELEGRAMS.

A Madrid dispatch of yesterday, says: Advice to the government state that the troops have captured Oyar-senn, captured the Governor and made many prisoners.

A Berlin dispatch says: A disastrous fire occurred at Naden-born. Over three hundred families are destitute.

A Vienna dispatch says that the insurrection shows signs of weakness. The insurgents keep to the hills, but they will be dislodged this coming winter, when their present stronghold will be untenable.

A letter from Charles Francis Adams is published relative to a proposition by certain political friends that he should be nominated for the Presidency. He says: "I am sure it would be impolitic for me to undertake the work, as I fear I have already on my hands quite as much as I dare accomplish during my term of life. I see nothing before me now."

The National Bank Notes received for redemption at Washington yesterday, amount to \$50,000; Internal Revenue Receipts, \$345,902.49; Customs, \$509,529.34.

A meeting of the Pacific Stock exchange was held at 3 o'clock this afternoon. The deliberations were held with closed doors, and no members of the exchange were in the hall. It is understood, however, that the members met to consider the propriety of removing the restriction of \$500 of fine against stock transactions, and also to take measures looking to a permanent withdrawal of the business. The Board rescinded the resolution imposing a fine of \$500 on private trading. A resolution to resume regular transactions to-morrow was debated at length but no vote was taken thereon. The Board adjourned to meet to-morrow at 10 o'clock A. M.

Many members of the Pacific Board who were members of the California Board, and had not withdrawn their names have been transacting business in the California Board since its opening. Fair play made it necessary to rescind the \$500 fine.

Genuine Evangelist.

Selkirk of the Placerville Democrat is a genuine evangelist. Listen to the gospel according to Selkirk:

Now let all who have worked foolishness, and all who have done vain things, straightway repent, and come in out of the west, and prepare themselves like little men to vote the straight Democratic ticket at the Judicial Election.

Know ye not that cleanliness is next to Godliness? Wherefore vote ye none other than the clean Democratic ticket at the Judicial Election. Woe be unto thee, Democratic scatcher, for verily art thou an abomination.

Whoever scatcheth, him also shall other scatchers scatch. Wherever thou scatchest, there with shall thou be scatched. More, yea, an hundred fold more, shall be the itching of him who scatcheth the Democratic ticket at the Judicial Election.

Peace, and rest, and quietness, and pleasant dreams, and much gain shall be the lot of him who voteth the straight Democratic ticket at the Judicial Election.

TO MY OLD GRAY COAT.
My old gray coat, my old gray coat,
Come wrap my aged form;
Surround me with thy ample folds,
To battle with the storm.
My old gray coat, my old gray coat,
Thou go'st where'er I go;
Thou dost shield me from the cold,
In hall, or rain, or snow.
The more the angry tempest rage,
The closer thy embrace;
Shielding my chilly limbs from harm,
Guarding my shivering face.
Let others talk, as well they may,
Of friends of all degrees,
Thy friendship warms me every day,
While off their friendships freeze.
Thou'st clung to me for many a day,
Though still I can't deny,
I've sometimes scorned thy kindly aid,
When summer friends were nigh.
But when November's nipping frost,
Fondled me with his frothy hair,
We join again in fond embrace,
And closer cling together.
Let others richer garments prize,
Of brown, or black, or blue;
My old gray coat, to you,
I honor thee, my old gray coat,
For all thy blessings past;
And may the thought of by-gone days
Concent us to the last.
Thy youth is gone, the fashion too—
All outward charms decay;
But still thy virtues to my view
Grow brighter every day.
And if in rage, my old gray coat,
Still precious thou wouldst be,
I value thee for what thou'st done,
For what thou'st been to me.

To the People.
The submission of the people of Los Angeles County and of the State to the result of the election, is but the ratification of what is supposed to be the free choice of the people in their sovereign capacity. And, although the fact may be that the sovereign people had nothing whatever to do with it, yet since it is so, it becomes the duty of the citizen cheerfully to acquiesce in the result and by their respect and generosity towards the men who have been elected to office, inspire them with nobler motives than might have actuated them during the campaign. For it is the crowning excellence of enlightened citizens, no matter what may be their convictions as to the men, or the means by which they were put in power, to bear them upon their arms of confidence, above the plane of prejudice and passion to the true appreciation that they are honored servants of the people from no partisan standpoint.
Forbearance is the duty of the citizen until it ceases to be virtue. When it has passed that point, it becomes a crime not to resist. It is the peculiar mode of the few who desire to control the masses in an election, to do it all by machinery—the necessary instrument—of oppression. To manipulate the vote of a free American citizen without the aid of chloroform, and at the same time lead the victim to believe that he retains his conscience, exercises his choice and has not lost his manhood, is the problem of the politician of the day. A politician who has made up his mind to do wrong, to carry through schemes of corruption, schemes of individual aggrandisement opposed to the best interests of the country, should be a man of powerful perseverance and courage. He set at defiance the conscience of an enlightened people, to insult their understanding by the means adopted to obtain their votes, to run the chances of just and merited defeat, and the consequent condemnation of all good men, requires a man whose cheek is blanching with the smoke of shame, a head full of the arts of political craft, with a heart devoid of a sensation to feel their consequences. He is generally the physician of a party in the last agonies of despair, or the tail of some new fangled "dolly-variant" which he has made up his mind to do wrong, to carry through schemes of corruption, schemes of individual aggrandisement opposed to the best interests of the country, should be a man of powerful perseverance and courage. protecting laws of California, enacted 1873-74.
An Insurance with an annual premium not
exceeding \$500 is exempt from taxation, by a

cash value, as provided for in the Trust Fund
Deposit Plan.

special arrangements, be issued by the follow-
ing Banks:
